That both Jack Harbertson, present holder of the light-heavyweight wrestling championship of the world, and Tarō Miyake, expert jiu jitsu wrestler and claimant of the world's title in that style of wrestling, are determined to put up the contest of their careers was indicated by conversations with them this morning. They are after each others' skins, according to their own statements.

Bill Mohler, champion of the navy for the service championship, and one of Harbertson's trainers, said: "Jack certainly has no love for either the Jap or his manager, J. Anderson. I fully expect him to put up the greatest contest of his career. He is in the pink of condition. He realizes that the Jap is no snap and has been training with that idea in view. He also realizes that defeating the Jap will be a long upward step in his career. In my opinion he has an excellent chance to win the match." Other trainers were equally confident that Harbertson will win.

In view of the widespread interest in the match, a representative of the Standard asked Manager Anderson this morning for a list of the wrestlers Miyake had met and defeated Anderson said:

"In the jiu jitsu style of wrestling, in which Miyake is the undisputed champion of the world, he defeated George Hackenschmidt in fifteen minutes and the Terrible Turk, in seventeen minutes. Both of these matches were at London, England. Miyake's home, where, by the way, his wife, an English woman, and his four year-old son, reside.

R. RYANERNIE FORD MAKES A
GOOD SHOWING AT
TRAP SHOOT

SALT LAKE, April 7.—The first registered trap tournament of the season was held yesterday in a blinding snowstorm over the Salt Lake Gun club traps and was under the auspices of the West Mountain Gun club of Bacchus.

Ernie Ford, the Ogden crack, shot from scratch and finished in second place with the brilliant score of 147 out of 150. Ford was in excellent form and put on a pretty exhibition of nerve and good shooting.

Harry Heagren was awarded a handicap of ten birds and finished in third place with a score of 146 out of a possible 150.

Don Morrison of the Peters Cart-ridge company and D. N. Hood, representing the Remington Arms company (professionals), shot a close race. Morrison broke 144 to Hood's 143.

C. E. Wharton made the long run of the day by breaking 72 targets straight. H. N. Welch was second, by smashing 67 straight, and Ernie Ford made two runs, one of 60 and one of 61 straight. Several long runs were made under the fifty mark, but these do not count in registered shoots.

In the regular club events, Ernie Ford won the class A medal by smashing 49 targets out of a possible 50.

In the class B medal event, J. L. Taylor of Ogden won after pulverizing 49 skimmers out of 50. Taylor also won the directors' long run medal after smashing 42 targets straight. Scores for yesterday's shoot follow:

TONY BERNARDI WINS

Tony Bernardi defeated Charlie Miller, at Burley, Idaho, in a speedy wrestling match, securing two straight falls. The first fall was obtained by Bernardi in 26 seconds and the second fall was obtained in 4 minutes, the leg cradle hold being used both times by Bernardi in securing the falls.

Bernardi recently issued a challenge to Jack Harbertson for a finish wrestling match.

Heavy Property
Damage Is Done
By Big Tornado

OMAHA, Neb., April 7.—Heavy damage but few personal injuries of consequence resulted from a vicious tornado that swept across the western residence section of Omaha last evening shortly after 8 o'clock. Dundee and Clifton hill suffered the greatest losses, many homes being unroofed and in many cases practically ruined.

It is remarkable that this twister swooped down upon the city at almost the same hour of the day of the week as the more disastrous storm of Easter Sunday, 1913, and nearly exactly six years afterward. Moreover, last night's tornado entered Omaha at exactly the same spot as did its deadlier predecessor, and in general the same path for a considerable distance.

Frances Micklen, six years old, appears on the face of early reports the only one who may die as the result of the re-visitation of the tornado. The girl lies unconscious at the University of Nebraska hospital. Her back appears broken.

Wire Service Crippled.
LINCOLN, Neb., April 7.—Wire communication in parts of southeastern Nebraska was crippled today as a result of violent wind storms which swept over that portion of the state last night. The greatest damage, reports indicate, was at Elmwood, Neb., where several farmhouses were badly damaged and telephone poles were leveled. No loss of life occurred.

LINCOLN, Neb., April 6.—Reports of violent windstorms at places reaching the proportions of a tornado, in Cass, Douglas and Otoe counties, reached Lincoln tonight. So far as known there was no loss of life, but property damage, according to reports was considerable. The storm was reported to have extended as far south as Nebraska City, but no damage reports came from that place.

Near the town of Elmwood, midway between Lincoln and Omaha, two farm houses were partly wrecked and one completely demolished. Out buildings on two of these farms were blown away. At the farm of George Lenz, which was totally wrecked, Mrs. Lenz was carried two hundred feet in the air and deposited in the orchard, but

LIPTON TO TRY AGAIN
FOR CUP?

Seemingly as alert and vigorous as he did 20 years ago, when he first came over to win the America cup, Sir Thomas Lipton has agreed again to look over the prospects for another try at the silver urn.

escaped with slight injuries. Some livestock was killed at this place, and wheat fields were badly damaged by a fall of hail which followed the wind. At Lincoln there was a high and heavy fall of rain, but no damage of consequence.

LINCOLN, April 7.—At Elmwood, where the storm reached the proportion of a tornado, every building on the farm of George Lenz was destroyed.

Mrs. Lenz was alone in the house at the time. When she heard the approach of the storm she climbed into bed with her three weeks-old baby. The wind picked up the bed, carried it through the air for 200 feet and then deposited it on a pile of brush.

Neither Mrs. Lenz nor the child was injured.

War Savings Board
Studies Monetary
Habits of People

WASHINGTON, April 7.—Monetary habits of groups of people in various industries and employments are the subject of study by the national war savings organization with a view to determining the best places and the best times to sell savings stamps. This is prompted by the reversal of last year's policy of giving an agency to practically every store which handles the stamps and adoption of a new plan to select carefully a few stores as agencies on condition that these make active efforts to push the sale of the stamps. Thus the organization hopes to make the agency privilege a real distinction in each community.

To this end, the war savings organization has undertaken to answer such questions as these:
Are people in a certain industry or locality most likely to buy stamps from their grocery stores or from a drug store which is open at night?
Are restaurants and candy stores effective agencies?
What sort of store in a small city is most likely to attract buyers after the postoffice is closed?
If department stores are made agencies to reach women, in what department or in what aisle location should the stamp-selling booth be located?
What sort of stores are best thrift stamp agencies for children?
What kind of downtown stores are best agents for men?

"It is realized, of course," says a war savings statement, "that banks, building loan associations, and such agencies to which people naturally go with money are excellent sales agents, and school houses are admirable selling points for children. But the savings directors want to make certain that adults in residential and industrial neighborhoods can secure stamps conveniently at the hours best suited to them and in connection with their usual trading activities.

"The number and location of agencies per thousand of population is being carefully considered as the treasury does not wish to split up the stamp business to such an extent that the business of each agency will be too small to be of any advertising benefit to the agent."

Conditions Better
